To whom it may concern,

The Pitkin County Solid Waste Center has had the pleasure of working with Aspen Digger, most recently completing the annual aggregate crushing operations. Aspen Digger personnel were responsive to the needs of the project, completed the work in a timely manner and under budget, and were knowledgeable about the task at hand.

Aspen Digger personnel provided creative and innovative solutions to the task and were flexible with scope changes. Their operators were skilled with the equipment and operated in a safe and efficient manner. They worked well in tandem with the onsite Solid Waste Center operators. Aspen Digger was a pleasure to work with; we would not hesitate to work with them in the future.

I'm happy to recommend the services of Aspen Digger. If you have any questions, feel free to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Cathleen Hall".
